Objective

Enthusiastic and detail-oriented Front-End Developer with internship experience and hands-on project work in building responsive, user-friendly web applications. Skilled in modern web technologies with a strong focus on performance, design, and accessibility. Eager to contribute to dynamic development teams while expanding technical expertise.

Skills

• Languages & Frameworks: HTML5, CSS3, JavaScript (ES6+), React.js • UI/UX & Styling: Tailwind CSS, Bootstrap, Responsive Design • Tools & Platforms: Git/GitHub, VS Code, Chrome DevTools, Figma • Other Skills: API Integration, Debugging, Cross-Browser Compatibility

Education

B.Tech in Geology Lautech, Ogbomoso | 2024

Internship Experience

Front-End Development Intern – web3 bridge web2 Advanced, | July 14 – Oct 12

- Assisted in developing and maintaining responsive web pages using HTML, CSS, and JavaScript.
- Collaborated with designers to implement UI/UX improvements for client projects.
- Optimized website performance and conducted cross-browser testing.
- Gained hands-on experience with Git version control and Agile workflows.

Projects

Responsive To-Do App

- Built with React.js; features add, edit, delete, filter tasks with local storage.
- Mobile-first UI using Tailwind CSS.
- ■ <https://github.com/AGpeter2018/To-do-list>

Responsive multi-step form

- This project is designed to collect user information in a step-by-step process.
- Providing a smooth and user-friendly experience across devices.
- ■ <https://github.com/AGpeter2018/multi-step-form>

Personal Portfolio (In Progress)

- Developing a personal portfolio to showcase projects and skills.
- Planned: responsive design, project showcase, contact form.

Strengths

- Strong problem-solving and debugging skills
- Adaptable and quick learner of new technologies
- Effective collaboration in team projects
